PROFESSIONAL SUMMARY

Analytical and detail-oriented graduate with strong skills in data analysis, problem-solving, and cloud technologies. Experienced in working within teams to deliver structured solutions. Proficient in handling and analyzing data responsibly, identifying process improvements, and following compliance standards. Strong communicator committed to ethical practices and continuous learning.

EDUCATION

Bachelor of Technology:

Swarnandhra College of Engineering and Technology | CGPA: 8.22 | Oct 2022 - May 2026

Intermediate:

Narayana Junior College | Percentage: 92% | Jan 2020 - Mar 2022

Secondary School Education:

Bhashyam High School | Percentage: 100% | Jan 2015 – July 2020

TECHNICAL SKILLS

- **Programming Languages:** Python
- **Databases:** SQL, MySQL
- **Web Technologies:** HTML, CSS, JavaScript
- **Tools & Frameworks:** VS Code, GitHub, Jupyter, Colab
- **Soft Skills:** Communication, Teamwork, Leadership, Analytical Thinking, Problem Solving, Team Collaboration, Business Problem Solving, Continuous Learning

PROJECTS

Fire Detection System (IoT) | Mar 2025 - Apr 2025

- Built a real-time monitoring system with automated alerts.
- Analyzed sensor data to improve safety and reliability.

Freelancer Finder | Jun 2025 – July 2025

- Developed a database-driven platform with authentication and optimized SQL queries.
- Improved performance and ensured secure data handling

BookNest – Where Stories Nestle

- A web-based book management platform that allows users to browse, search, and organize books through an interactive interface.
- Built using modern web technologies to deliver a responsive and efficient digital book exploration experience.

INTERNSHIPS

Cloud Virtual Internship – EduSkills Academy, AICTE, AWS Academy | Apr 2024 – Jun 2024

- Implemented cloud-based solutions using AWS EC2 and S3, ensuring high availability and security.
- Applied best practices for scalability, performance optimization, and cloud architecture

Full Stack Development (MERN) Internship-SmartBridge, APSICHE | May 2025 – July 2025

- Developed and deployed web applications using MongoDB, Express.js, React.js, and Node.js
- Optimized application performance, improving response time by 20% and enhancing code maintainability

CERTIFICATES

Python for Data Science -NPTEL – IIT Madras, 4 Weeks

Object Oriented Programming using Python – Infosys Springboard | 2025

Data Analytics Virtual Internship-Deloitte Australia (Forage)
